

JACK RAMSEY

ENTRY-LEVEL SOFTWARE DEVELOPER

16132 E Love Ln, Benton City | techxramsey@gmail.com | github.com/jack-ramsey-jar

ABOUT ME

I am a recent high school graduate interested in computer science. I enjoy solving problems, learning technological skills, learning various APIs and Frameworks, and working on code-based projects. I hope to pursue a career in software, application, and game development.

PROFESSIONAL SKILLS

Problem Solving Self-Directed Learning
Time Managment Attention to Detail

TECHNICAL SKILLS

Java OOP
Git & Github DSA

PROJECTS

Virtual Pet Game

Feb 2026

- Developed a command-line virtual pet simulation in **Java** using **object-oriented programming** with **input validation** and **event/error handling**.
- Implemented time-based simulation mechanics using Java's **scheduled task execution framework**.
- Created randomized game outcomes and progression mechanics based on pet age and user interactions.

Command Line Interface Task Manager

May 2026

- Developed a command-line application allowing users to create, organize, and track tasks.
- Designed an **object-oriented architecture** to manage task data, priorities, deadlines, and completion status.
- Implemented **persistent data storage** to save and restore task information between sessions.

Car Repair Scheduler

May 2026

- Developed a basic command-line interface application allowing users to schedule car repairs with mechanics given that the mechanic is available and the repair is not occupied.

EDUCATION

High School Diploma | Richland High School | Richland, WA

March 2023 - June 2026

- Relevant Coursework: AP Computer Science A, AP Calculus BC
